DETAILED ACTION

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The examiner agrees with those arguments presented 12/27/06. In particular the examiner agrees that there are significant structural differences between the phosphate ester surfactants cited in the prior art versus those found in the instant claims. Specifically, the prior art anionic phosphate esters are neutralized on what would be the R group of instant formula 1. In contrast the applicant's surfactant is neutralized at the phosphate group. A further search of the STN database also failed to yield the applicant's specific surfactant. As such, the instant claims are found to be allowable.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglass McGinty can be reached on (571)272-1029. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
